

Safety Data Sheet

Revised Date: 4/25/2018

FAWSDS-20

1. Identification

Product identifier:

Product name Tin Plating.

Other means of identification:

SDS number FAWSDS-20

Recommended use and restrictions on use

Recommended use None known.

Restrictions on use None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer/Supplier

Fisk Alloy,
PO Box 26,
10 Thomas Road,
Hawthorne, NJ 07507, USA.

General Assistance

Call Fisk Alloy at: 973 825 8500.

E-Mail

Fiskalloy.com

Contact Person

None known.

Emergency Telephone Number

FOR ALL TRANSPORTATION ACCIDENTS, CALL CHEMTREC AT
800-424-9300.

2. Hazard(s) identification

OSHA/HCS status

This material is not classified by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture

Physical Hazards Not classified.

Health Hazards Not classified.

Environment Hazards Not classified.

GHS Label elements

No labeling applicable.

Signal word

Not applicable.

Hazard statements

Not applicable.

Hazard(s) not otherwise classified (HNOC)

Metallic product which poses little or no immediate hazard in solid form. Exposure to the elements listed in Section 3 by inhalation, ingestion, and skin contact can occur during routine handling, material transfer, chemical processing or further processing. If this material is converted or becomes part of a solid shape, exposure can occur when melting, casting, gross handling, pickling, chemical cleaning, heat treating, abrasive cutting, welding, grinding, sanding, polishing, milling, crushing or otherwise heating or abrading the surface of this material in a manner which generates particulate. Exposure may also occur during repair or maintenance activities on contaminated equipment such as: furnace rebuilding, maintenance or repair of air cleaning equipment, structural renovation, welding, etc. Particulate depositing on hands, gloves, and clothing, can be transferred to the breathing zone and inhaled during normal hand to face motions such as rubbing of the nose or eyes, sneezing, coughing, etc.

3. Composition/information on ingredients

Safety Data Sheet

Revised Date: 4/25/2018

FAWSDS-20

Mixtures

Chemical name	CAS number	%
Tin	7440-31-5	100

4. First-aid measures

Description of necessary first aid measures:

Inhalation

When symptoms occur: go into open air and ventilate suspected area. Keep at rest and in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.

Skin contact

Cool skin rapidly with cold water after contact with molten product. Removal of solidified molten material from skin requires medical assistance. Remove contaminated clothing. Drench affected area with water for at least 15 minutes. Wash with plenty of soap and water. Wash contaminated clothing before reuse. Obtain medical attention if irritation persists.

Eye contact

Removal of solidified molten material from the eyes requires medical assistance. Immediately rinse with water for a prolonged period (at least 15 minutes) while holding the eyelids wide open. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.

Ingestion

Ingestion is unlikely due to physical state. Rinse mouth. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.

The most important symptoms and effects, both acute or delayed

Inhalation: Inhalation of dusts and fumes can cause metal fume fever. The Symptoms can include a metallic taste in mouth, sweating, shivering, headache, throat irritation, fever, chills, thirstiness, muscle aches, nausea, vomiting, weakness, fatigue, and shortness of breath.

Skin Contact: May cause an allergic skin reaction. Dust from physical alteration of this product causes skin irritation. Causes severe skin burns. Contact with fumes or metal powder will irritate skin. Contact with hot, molten metal will cause thermal burns. Dust may cause irritation in skin folds or by contact in combination with tight clothing. Mechanical damage via flying particles and chipped slag is possible.

Eye Contact: Dust may cause mechanical irritation to eyes, nose, throat, and lungs.

Ingestion: Ingestion is likely to be harmful or have adverse effects.

Chronic Symptoms: Tin: Has been shown to increase incidence of sarcoma in animal tests. Chronic exposure to tin dusts and fume may result in "stannosis", a mild form of pneumoconiosis.

Indication of immediate medical attention and special treatment needed

In case of shortness of breath, give oxygen. If seeking medical attention provide SDS document to physician. Physician should treat symptomatically.

General information

IF exposed or concerned: Get medical advice/attention.

5. Fire-fighting measures

Safety Data Sheet

Revised Date: 4/25/2018

FAWSDS-20

Suitable extinguishing media

CO₂, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Unsuitable extinguishing media

No information available.

Specific hazards arising from the chemical

Combustible dust formation is a risk. Thermal decomposition can lead to release of irritating gases and vapors.

Special protective equipment and precautions for firefighters

Precautionary Measures Fire: Under fire conditions, hazardous fumes will be present.

Firefighting Instructions: Exercise caution when fighting any chemical fire.

Protection During Firefighting: If this material becomes airborne as a respirable particulate during a fire situation, pressure-demand self-contained breathing apparatus must be worn by firefighters or any other persons potentially exposed to the metal fumes.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

General measures: Do not handle until all safety precautions have been read and understood. Do not breathe vapors from molten product. Avoid all eye and skin contact and do not breathe dust, fumes, and vapors. Ensure adequate ventilation. Ensure that air-handling systems are operational.

For non-emergency personnel: Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel. Use explosion-proof equipment.

For emergency personnel: Equip cleanup crew with proper protection. Ventilate area.

Environmental precautions

Prevent entry to sewers and public waters. Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

Methods and materials for containment and cleaning up

Contain and collect as any solid. Clear up spills immediately and dispose of waste safely. For particulates and dust: Avoid actions that cause dust to become airborne during clean-up such as dry sweeping or using compressed air. Use PPE described in Section 8. Vacuum must be fitted with HEPA filter to prevent release of particulates during clean-up.

7. Handling and storage

Precautions for safe handling

Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical materials. Follow proper disposal methods. Do not eat, drink, smoke, or use personal products when handling chemical substances.

Conditions for safe storage, including any incompatibilities

Storage conditions: Store in a dry, cool and well-ventilated place.

Incompatible Materials: Strong acids, strong bases and strong oxidizers. Alkalis. Metal oxides. Water, humidity. Corrosive substances in contact with metals may produce flammable hydrogen gas.

8. Exposure controls/personal protection

Safety Data Sheet

Revised Date: 4/25/2018

FAWSDS-20

Occupational exposure limits

Country	Type	Tin Value (mg/m ³)
Belgium	TWA	2 (a, b), 0.1 (c), 2 (e)
	STEL	0.2 (c)
Brazil	TWA	-
Canada-Alberta	TWA	2 (a, b), 0.1 (c)
	STEL	0.2 (c)
Canada-British Columbia	TWA	2 (a, b), 0.1 (c)
	STEL	0.2 (c)
Canada-Ontario	TWA	2 (a, b), 0.1 (c), 2 (e)
Canada-Quebec	TWA	2 (a, b), 0.1 (c)
	STEL	0.2 (c)
China	TWA	-
Denmark	TWA	2 (a)
	STEL	4 (a)
France	TWA	-
Germany	TWA	-
Hong Kong	TWA	2 (a, b), 0.1 (c)
	STEL	0.2 (c)
India	TWA	-
Italy	TWA	2 (a)
Japan	TWA	-
Korea	TWA	2 (a, b), 0.1 (c), 2 (e)
Malaysia	TWA	-
Mexico	TWA	2 (a), 0.1 (c)
	STEL	4 (a), 0.2 (c)
Poland	TWA	2 (a)
Portugal	TWA	-
Russia	TWA	-
Singapore	TWA	2 (a)
Sweden	TWA	2 (d), 0.1 (c), 2(e)
	STEL	0.2 (c)
Taiwan, R. O. C.	TWA	2 (c)
United Kingdom	TWA	2 (a)
	STEL	4 (a)
USA ACGIH	TWA (TLV)	2 (a), 0.1 (c)
USA OSHA	TWA (PEL)	2 (e), 0.1 (c)
USA NIOSH	TWA (REL)	2 (e), 0.1 (c)

NOTE: a- Oxide and inorganic compounds, as Sn except tin hydride (SnH₄); b- Metal; c- Organic compounds, as Sn; d- Tin and inorganic compounds, as Sn, inhalable dust ; e- Inorganic compounds (except oxides) (as Sn)

Appropriate engineering controls

Use local exhaust or general dilution ventilation or other suppression methods to maintain dust levels below exposure limits. Power equipment should be equipped with proper dust collection devices. Ensure all national/local regulations are observed.

Individual protection measures, such as personal protective equipment

Respiratory equipment

Hand protection

Eye protection

Other protection

General hygiene considerations

Respiratory protection not normally needed. If dusting occurs or fumes are generated above the established occupational exposure limits, use a NIOSH-approved half-face or full-face respirator equipped with High Efficiency Particulate (HEPA) filters cartridges.

Wear chemically resistant protective gloves. If material is hot, wear thermally resistant protective gloves.

Chemical goggles or safety glasses.

Chemically resistant materials and fabrics. With molten material wear thermally protective clothing. If generating a dust, wash thoroughly after handling, especially before eating, drinking, or smoking. Wash contaminated clothing before reuse.

Do not eat, drink, or smoke while using this product in dust form. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. Avoid contact with skin, eyes, and Clothing.

9. Physical and chemical properties

Appearance	Silver/Grey Metallic.
Physical state	Solid.
Form	Solid.
Color	Silver/Grey.
Odor	None.
Odor threshold	Not available.
pH	Not applicable.
Melting point/freezing point	449.5F
Initial boiling point/Boiling range	No data.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not applicable.
Lower explosive limit	Not applicable.
Upper explosive limit	Not applicable.
Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	Not available.
Solubility in Water (20°C)	Negligible.
Partition coefficient - n-octanol/water	Not applicable.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not applicable.
Viscosity (cps)	Not applicable.
Others:	

Safety Data Sheet

Revised Date: 4/25/2018

FAWSDS-20

Molecular Weight	Not applicable – Mixture.
Volatiles	Not applicable.
Specific Gravity (g/cc)	7.3
Bulk Density (g/cc)	7.3

10. Stability and reactivity

Reactivity	Hazardous reactions will not occur under normal conditions.
Chemical stability	Stable under recommended storage conditions and stable in solid form.
Possibility of hazardous reactions	Hazardous polymerization will not occur.
Conditions to avoid	Excessive heat. Dust generation. Incompatible materials.
Incompatible materials	Strong oxidizing agents, Sulphur compounds, Strong bases, Halogens, Do not store near acids.
Hazardous decomposition products	Tin/tin oxides.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Inhalation of dusts and fumes can cause metal fume fever. Symptoms can include a metallic or sweet taste in the mouth, sweating, shivering, headache, throat irritation, fever, chills, thirstiness, muscle aches, nausea, vomiting, weakness, fatigue, and shortness of breath.
Ingestion	Ingestion is likely to be harmful or have adverse effects.
Skin contact	May cause an allergic skin reaction. Contact with fumes or metal powder will irritate skin. Contact with hot, molten metal will cause thermal burns. Dust may cause irritation in skin folds or by contact in combination with tight clothing. Mechanical damage via flying particles and chipped slag is possible.
Eye contact	Dust may cause mechanical irritation to eyes.
Symptoms related to the physical, chemical and toxicological characteristics	No information available.
Delayed and immediate effects and chronic effects from short- and long-term exposure	In massive form, no hazard exists. If physically altered to present slivers, ribbons, dusts or fumes from molten material. Tin: Has been shown to increase incidence of sarcoma in animal tests. Chronic exposure to tin dusts and fume may result in "stannosis", a mild form of pneumoconiosis.
Numerical measures of toxicity:	
No information available.	
Skin corrosion/irritation	Not Classified.
Serious eye damage/eye irritation	Causes serious eye irritation.
Respiratory or skin sensitization	
Respiratory sensitization	Not Classified.
Skin sensitization	Not Classified.
Germ cell mutagenicity	Not Classified. This product is not known or reported to be mutagenic
Carcinogenicity	Not Classified. This product is not known or reported to be carcinogen.
Reproductive toxicity	Not Classified. This product is not known or reported to cause reproductive or developmental effects.
Specific target organ toxicity –	Not Classified.

Safety Data Sheet

Revised Date: 4/25/2018

FAWSDS-20

single exposure

Specific target organ toxicity – Not Classified.

repeated exposure

Aspiration hazard Not Classified.

12. Ecological information

Ecotoxicity

No information available.

Numerical measures of toxicity

Chemical Name	Test	Species	Test Results
Tin (CAS# 7440-31-5)	Fish LC ₅₀	Fathead minnow (<i>Pimephales promelas</i>)	0.0124mg/l, 96 Hours
	Algae EC ₅₀	Microalgae (<i>Pseudokirchneriella subcapitata</i>)	0.0192mg/l, 72 Hours

Persistence and degradability

No data available.

Bioaccumulative potential

No data available.

Mobility in soil

No data available.

Other adverse effects

No known significant effects or critical hazards.

13. Disposal considerations

Disposal instructions

Dispose of in accordance with local regulations. Do not contaminate ponds, waterways or ditches with chemical or used containers.

Contaminated packaging

None known.

14. Transport information

In accordance with DOT

Not regulated for transport.

In accordance with IMDG

Not regulated for transport.

In accordance with IATA

Not regulated for transport.

15. Regulatory information

United States

US federal regulations

This product is a "Non Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Substance is on the U.S. EPA TSCA Inventory List.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Substance is not listed.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Substance is not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)

Substance is not listed.
